SUMMARY

Senior Technician in Software Engineering with solid experience in web and mobile application development. Proficient in modern technologies such as React Native, Next.js, Spring Boot, and MySQL. Skilled in creating efficient and scalable software systems, with a passion for innovation and performance optimization.

WORK EXPERIENCE

Mobile and Web Developer, Institut Poincaré   **Aug 2024 - Présent**

- Developed the web front-end of the Beedumy platform using modern technologies such as Expo and React Native.
- Created the Android version of the Beedumy application with Expo, ensuring smooth performance and an optimal user experience.
- Designed and implemented communication screens using HTML and CSS, maintaining visual consistency.
- Adapted the Poincaré platform to a mobile version using Expo, delivering a fully responsive and user-friendly interface.

Final Year Project Internship, LEONI Wiring Systems Tunisia   **Jan 2024 - June 2024**

- Design and development of a web and mobile application for digitizing Leoni's services.
- Technologies used: React Native, Next.js, Spring Boot, MySQL.

EDUCATION

Bachelor's Degree in Computer Science, specializing in Software Engineering and Information Systems   **Sep 2021 - June 2024**

Higher School of Science and Technology of Hammam Sousse

Baccalaureate in Experimental Sciences   **Sep 2016 - May 2021**

Carthage Hannibal High School

ADDITIONAL INFORMATION

Languages: English, Arabic, French

Technical Skills:

- **Programming Languages:** Java, Python, C, C++, HTML/CSS, PHP, XML, JSON
- **Frameworks:** Next.js, React.js, React Native, Expo, Spring Boot
- **Databases:** SQL (Structured Query Language), PostgreSQL, MongoDB (NoSQL)
- **Tools:** Git
- **Methodologies:** SCRUM
- **Modeling Language:** UML
